Dr. Maclyn McCarty
Rockefeller Institute
York Avenue and 66th St.
New York, N.Y.

Dear Dr. McCarty:

I write to request your cooperation in publicizing the symposium on "Biochemical and Biophysical Studies on Viruses" to be held in Atlantic City in April. Your paper is suggestive of general interest and I hope that you will be able to provide me with a comprehensive nontechnical abstract of about 1,000 words for use in the press. Receipt of this copy well in advance of the event would be very helpful. I shall appreciate your assistance in our efforts to report developments in chemical research for the lay reader.

Sincerely,

A handwritten signature in dark ink, appearing to read "James T. Grady".

James T. Grady
